FleetCo + FSI

SaaS Platform · Managed Fleet Operations · FSI Dealership
Service Layer · 2026–2035

fleetcomanagement.org · (360) 952-1249 ·
support@fleetcomanagement.org

Fleetco Management LLC · Dallas, TX · Founded 2022

CONFIDENTIAL — FOR INTERNAL & INVESTOR USE

1. Executive Summary

Fleetco Management LLC is a managed fleet operations company combining dedicated fleet management services with a proprietary SaaS platform at <https://fleetcomanagement.org>. Founded in 2022 and headquartered in Dallas, TX, FleetCo serves owner-operators and small-to-mid-size carriers (1–50+ vehicles) who need one connected system for dispatch, maintenance, compliance, fuel optimization, accounting, and driver communication — without hiring a full back-office team.

Fleet Services International LTD (FSI authorized dealer · affiliated with FleetCo) is the affiliated FSI dealership operating entity (mobile on-site commercial PM and repair in a protected territory — per fleetservicesint.com dealership model; not a franchise). FSI corporate provides dealer training, vendor supply chain, and dealer software; FleetCo provides SaaS and managed fleet operations. Together they form an integrated stack: FleetCo for digital operations, FSI dealer standards for field service revenue and downtime reduction. Public affiliation between FleetCo and a specific awarded FSI territory should be confirmed before external investor materials.

Revenue combines recurring subscriptions (\$299–\$599/mo core tiers, custom enterprise) with shop labor and parts. The U.S. for-hire sector includes 750,000+ motor carriers; most operate under 20 power units and lose an estimated 30% of revenue to inefficiency and downtime. FleetCo targets measurable ROI: 15–25% less unplanned downtime, 8–12% fuel savings, \$2K+ average annual savings per unit — amplified when FSI performs PM and repairs with work orders flowing directly into the portal.

Year 1 (2026) base case: 18 SaaS customers, \$97K ARR, one FSI territory pilot (~\$185K mobile service revenue). FSI corporate cites typical dealer capital of ~\$150K–\$500K per awarded territory (separate from FleetCo SaaS opex). By Year 10 (2035): 780 SaaS customers, \$5.71M ARR, 12 FSI territories in the financial model, \$47.74M cumulative combined revenue over the decade. SaaS reaches EBITDA break-even in Year 5; territory scale adds mobile crews and fleet accounts funded from operating cash flow.

YEAR 10 SAAS ARR \$5.71M 780 customers · base case	YEAR 10 COMBINED REVENUE \$12.40M 12 FSI locations	10-YEAR COMBINED \$47.74M SaaS \$19.01M + shops
--	--	---

2. Corporate Structure

Fleetco Management LLC (FleetCo) owns brand, SaaS, customer contracts, and managed services from Dallas (founded 2022). Fleet Services International LTD (FSI authorized dealer · affiliated with FleetCo) is the affiliated FSI authorized dealer operation — exclusive protected territory, mobile workstations, field teams, and on-site B2B fleet service per fleetservicesint.com (not a franchise; not FSI corporate). FSI corporate (fleetservicesint.com) is the separate national licensor providing training, vendor supply chain, and dealer

software access. Intercompany MSAs cover FleetCo software for dealer ops, SaaS customer referrals for priority mobile service, and consolidated leadership reporting.

FleetCo Management LLC

Product, engineering, sales, fleet managers, customer portals, Stripe billing, mobile driver app, and executive analytics.

Fleet Services International LTD (FSI

authorized dealer · affiliated with FleetCo)

Mobile commercial fleet service in protected territory: scheduled preventative maintenance, breakdown/service calls, on-site repair (vans, trucks, trailers); owner-led team of mechanics, sales, and admin per FSI dealer model; Richard Petty / Petty's Garage co-brand available to exclusive dealers per FSI site.

FSI corporate (fleetservicesint.com)

Since 2001 per FSI site: territory award, elite training, continuous support, pre-negotiated parts/tools vendors, proprietary dealer back-office software (scheduling, inventory, invoicing).

Customer promise: One relationship with FleetCo; optional in-territory mobile FSI-standard service with digital work orders, live vehicle/service status in portal, and unified P&L — no duplicate data entry.

3. Company Overview

SaaS entity: Fleetco Management LLC

Website: fleetcomanagement.org

FSI dealer entity: Fleet Services International LTD
(FSI authorized dealer · affiliated with FleetCo)

Contact: (360) 952-1249 ·
support@fleetcomanagement.org

Headquarters: Dallas, TX

Founded: 2022

Ownership: JaReil D. Slack & Desiree Slack, Owners
(both FleetCo and affiliated FSI dealer entity per plan)

Mission

Give every fleet — from one truck to fifty — enterprise-grade operations, compliance, and cost control without enterprise complexity, backed by mobile on-site service when units need wrench time.

Vision

Become the trusted managed operations and service partner for 1,000+ North American fleets by 2035, with FSI-aligned mobile service territories integrated with FleetCo on every major freight corridor we serve.

Core Values

- Transparency in pricing and performance
- Safety and compliance first
- Human support backed by modern technology
- Long-term partnerships over transactional sales
- Field service and software built as one system

Entity note: Affiliated FSI dealer operation integrated with FleetCo; FSI corporate platform at fleetservicesint.com. See [fleet-services-international-research.md](#).

3a. Online research — verified vs assumptions

Researched 2026-07-21. Full memo: [marketing/fleet-services-international-research.md](#)

Integrated stack: FSI corporate (fleetservicesint.com) licenses territories and dealer systems; FleetCo (fleetcomanagement.org) delivers SaaS + managed ops; affiliated dealer entity operates mobile PM/repair with FleetCo as the integrated software layer for subscribers and dealer back-office.

Verified — Fleet Services International (fleetservicesint.com)

- **Brand:** Fleet Services International (FSI)
- **Role:** National B2B mobile fleet service dealership platform (exclusive territory licenses for independent dealers)
- **Phone:** +1 404-699-9669
- **Site:** <https://www.fleetservicesint.com/>
- **Founded (site claim):** Started 2001; 25+ year dealer track record (site marketing)
- **Capital band (site):** \$150,000–\$500,000 typical total commitment (territory-dependent)
- **Model:** Site states not a franchise — no franchise fees or royalties
- **Richard Petty / Petty's Garage co-brand:** Yes (site)

Verified — FleetCo (this plan)

- **Entity:** Fleetco Management LLC
- **Site:** <https://fleetcomanagement.org>
- **HQ:** Dallas, TX · Founded 2022

- **Ownership:** JaReil D. Slack & Desiree Slack (per internal plan)

Plan assumptions (internal projections)

- Fleet Services International LTD (FSI authorized dealer · affiliated with FleetCo) operates as Slack-affiliated FSI dealership territory(ies) per official mobile dealer model (not fixed retail bays as primary model)
- Territory count and service P&L in SHOP_PROJECTION are FleetCo internal projections — not FSI corporate forecasts
- FleetCo portal/work-order integration with field service is product roadmap

4. Market Analysis

Problem

- 5+ disconnected tools for dispatch, maintenance, fuel, compliance, and payroll
- 30% of revenue lost to inefficiency, downtime, and poor visibility
- DOT violations and missed PMs cost \$10K+ in fines and lost loads annually
- No single source of truth for fleet P&L and cost-per-mile
- External shops rarely update fleet software — owners lose days waiting on phone calls and paper tickets

Target Segments

Segment	Fleet Size	Tier	Primary Need
Owner-operators	1–5 vehicles	Starter (\$299/mo)	Compliance, fuel optimization, parts sourcing, FSI PM packages, monthly reporting
Small fleets	6–15 vehicles	Growth (\$599/mo)	PM scheduling, priority mobile service windows, quarterly budget reviews, safety coordination
Established fleets	16+ vehicles	Enterprise (custom)	Telematics integrations, dedicated account team, multi-site mobile service SLAs, EV transition planning
B2B fleet accounts (FSI dealer)	1–30+ units	PM programs + time & materials	On-site preventative maintenance and break-fix without full SaaS (upsell path to FleetCo)

Market size: U.S. for-hire motor carriers: 750,000+ · Addressable small/mid fleets (1–50 units): ~500,000 · Class 8 aftermarket repair & maintenance: \$30B+ annually · Serviceable obtainable market (Year 1–3: TX, Gulf Coast, PNW corridors): ~45,000 fleets + regional B2B fleet service accounts

Industry Trends

- Rising insurance and compliance costs pushing fleets toward managed services
- Driver shortage increasing demand for mobile-first tools and reduced paperwork
- Consolidation of point solutions into platform plays — FleetCo + FSI as vertical stack
- Aging Class 8 fleet increasing demand for PM programs and extended warranty work
- Telematics and AI adoption creating appetite for unified dashboards and predictive maintenance

5. Products & Services

FleetCo SaaS Platform

- Public marketing site with platform tour, services, transparent pricing, investor and competitive analysis pages
- Executive portal — KPI dashboard, customers, fleet assets, dispatch, maintenance, analytics, accounting actions
- Customer portal — team roles, Stripe subscriptions, documents, driver media, messaging
- FleetCo Driver app (Capacitor) — time clock, live GPS, loads, fuel logs, dashcam, barcode scanning, HOS/inspections, routes & POD
- Maintenance module — PM schedules, work orders, service templates, parts inventory, vendor contracts, Repairs Dashboard, Time Clock for techs
- Finance — invoicing, fuel audits, IFTA dashboard, fleet P&L per unit, custom reports
- AI Site Commander — intelligent site assistance and operational guidance

Managed Services (FleetCo)

- Dedicated fleet manager per account
- Parts sourcing and NBO vendor coordination
- Fuel optimization and IFTA-ready reporting
- Preventive maintenance scheduling and work order management
- Safety and DOT compliance coordination
- Monthly and quarterly business reviews (tier-dependent)
- Towing and external shop coordination when outside FSI footprint

Fleet Services International LTD (FSI authorized dealer · affiliated with FleetCo) — Shop Services

Service	Pricing	Description
Scheduled preventative maintenance	Fleet PM programs	Core FSI dealer revenue per fleetservicesint.com — recurring on-site PM for commercial fleets
Breakdown / service calls	Time & materials	On-site break-fix when units fail; complements predictable PM revenue
On-site engine & driveline	Estimate on site	Mobile repair for vans, trucks, trailers — work orders in FleetCo portal
Tire & trailer work	Per job / fleet account	Commercial tire and trailer maintenance at customer yard or terminal
DOT / compliance support	Per inspection	Inspection and compliance documentation tied to FleetCo maintenance records
Fleet intake / prep	Per-unit packages	Pre-road safety repairs for acquired units — upsell to FleetCo SaaS

SaaS Subscription Pricing

Plan	Price	Fleet Size
Starter	\$299/mo · 1–5 vehicles · \$3,229/yr (10% off)	Up to 5 vehicles
Growth	\$599/mo · 6–15 vehicles · \$6,471/yr (10% off)	Up to 15 vehicles
Enterprise	Custom · 16+ vehicles · telematics & dedicated account team	16+ vehicles

Client ROI Claims

- 15–25% reduction in unplanned downtime (PM + integrated mobile service)
- 8–12% fuel cost savings through optimization
- \$2K+ average annual savings per truck/unit
- 100% compliance visibility across fleet documents and inspections
- Same-day service visibility — managers see units in service on dashboard without phone tag

6. Shop Operations & Platform Integration

Workflow (portal ↔ bay)

1. Driver or manager opens DVIR / pre-trip defect → optional auto work order
2. Vehicle status set to In Service / In Shop; appears on Fleet Map and Repairs Dashboard
3. Field tech clocks time to work order (Time Clock module); parts from mobile inventory
4. Customer portal shows labor, parts, and invoice; accounting exports for P&L per unit
5. On completion, status returns to Active; PM schedule updated from odometer and service templates

Strategic Advantages

- Demonstrates platform to prospects via live mobile service workflow
- Captures repair margin that pure SaaS competitors leave to third parties
- Reduces churn — operational data and service history stay in FleetCo
- Aligns with FSI corporate model: service brought to the customer to reduce downtime

FSI Expansion Roadmap

Phase	Plan
2026	Pilot one protected territory (Dallas metro target); mobile workstation + FleetCo work orders
2027–2028	Scale fleet accounts and mobile crews within territory; add sales/admin headcount per FSI dealer blueprint
2029–2031	Financial model adds 1–2 territories per year (subject to FSI corporate award and capital)
2032–2035	Up to 12 territories in base-case model; standardized PM menus; FleetCo SaaS cross-sell on every account

7. Revenue Model

Stream	Description
SaaS subscriptions	Starter / Growth / Enterprise monthly or annual (10% yearly discount); blended ARPU rises \$450→\$610/mo (Y1–Y10)
FSI dealer labor & parts	Mobile on-site PM and repair; target 42% gross margin on dealer service revenue (projection)
Onboarding & projects	Data migration, custom reports, enterprise integrations (non-recurring)

Year 10 base case: \$5.20M SaaS + \$7.20M FSI dealer service = \$12.40M total Year 10 revenue (base case)

8. Competitive Advantage

- Hybrid model: managed services + proprietary platform + FSI-aligned mobile dealer service — not pure self-serve software or telematics-only
- Flat monthly SaaS pricing by fleet size band — predictable vs. per-vehicle fees from Samsara/Motive class vendors
- Full maintenance stack competitors lack: service templates, parts inventory, mechanic time clock, vendor contracts
- End-to-end: website → portal → driver app → mobile FSI service in one ecosystem
- Production PostgreSQL infrastructure, Stripe-ready billing, multi-tenant customer portal
- Owner-operated with direct leadership access; competitive matrix shows breadth vs. point solutions

9. Marketing & Sales (Go-to-Market)

Phase	Tactics
Year 1–2	Founder-led outbound, website consultations, client deck, Google/LinkedIn ads, FSI dealer launch in territory, local fleet associations
Year 3–5	Inside sales, referral program with fuel vendors, SaaS customers prioritized for mobile PM windows, MATS/GATS, downtime case studies
Year 6–10	Regional sales + territory leads, enterprise RFPs, ELD/telematics integrations, new territory awards where capital allows

Sales funnel: Website / consultation → Live demo (portal + field service story) → Subscription and/or PM contract → Onboarding → Expansion (Starter → Growth; dealer PM programs)

Retention: Fleet manager relationships, quarterly reviews (Growth+), platform stickiness via operational + service data, priority mobile scheduling for subscribers

10. Operations & Technology

Stack: Node.js/Express API · React/Vite frontend · PostgreSQL (Render) · Capacitor mobile apps · Resend email · Stripe billing · Android release AAB pipeline for Play Store

Delivery model: Remote-first FleetCo ops with Dallas HQ; FSI territory lead on-site for field teams; fleet managers assigned by region and fleet size

Support tiers: Email and phone (Starter); priority + quarterly reviews (Growth); dedicated account team (Enterprise); dealer service accounts get field lead as operational contact

Headcount Plan

Period	FTE	Roles
Y1–2	2–4 FleetCo + 6–8 FSI dealer	Owners, 1 fleet manager, part-time engineering; territory owner, 3–4 mobile techs, 1 sales/admin
Y3–5	6–10 FleetCo + 12–20 FSI	+ sales, support, engineering; 2 territories, duplicate field leadership per territory
Y6–10	12–15 FleetCo + 45–60 FSI	Regional managers, CS, enterprise; up to 12 territories × mobile crews + support staff (model)

11. Team & Organization

Function	Structure
Leadership	JaReII D. Slack — Owner/CEO: product vision, enterprise sales, platform architecture
Leadership	Desiree Slack — Owner/COO: operations, fleet services delivery, FSI dealer team standards and hiring
FleetCo	Product & engineering · Fleet managers & safety coordinators · Sales & marketing · Customer success & billing
Fleet Services International LTD (FSI authorized dealer · affiliated with FleetCo)	Territory owner / dealer principal · Field service manager · Mobile heavy-duty technicians · Sales reps & admin (per FSI dealer model) · Parts/inventory coordinator

Governance: Weekly leadership sync on ARR, territory fleet-account growth, and churn; shared KPI dashboard in executive portal

12. Financial Summary — SaaS (Base Case)

Year	Customers	Revenue	ARR (EoY)	YoY
Y1 (2026)	18	\$49K	\$97K	—
Y2 (2027)	42	\$169K	\$237K	248%
Y3 (2028)	85	\$367K	\$495K	117%

Y4 (2029)	145	\$690K	\$870K	88%
Y5 (2030)	220	\$1.12M	\$1.36M	63%
Y6 (2031)	310	\$1.70M	\$1.99M	51%
Y7 (2032)	410	\$2.40M	\$2.73M	41%
Y8 (2033)	520	\$3.21M	\$3.59M	34%
Y9 (2034)	640	\$4.11M	\$4.53M	28%
Y10 (2035)	780	\$5.20M	\$5.71M	27%
10-Year Cumulative		\$19.01M		

SaaS-only model; companion PDFs include full P&L scenarios. Shop revenue is additive below.

13. Financial Summary — Combined (SaaS + FSI Shops)

Year	SaaS Revenue	Dealer Service Revenue	Total	FSI Territories
Y1 (2026)	\$49K	\$185K	\$234K	1
Y2 (2027)	\$169K	\$420K	\$589K	1
Y3 (2028)	\$367K	\$880K	\$1.25M	2
Y4 (2029)	\$690K	\$1.45M	\$2.14M	3
Y5 (2030)	\$1.12M	\$2.10M	\$3.22M	4
Y6 (2031)	\$1.70M	\$2.75M	\$4.45M	5
Y7 (2032)	\$2.40M	\$3.40M	\$5.80M	6
Y8 (2033)	\$3.21M	\$4.55M	\$7.76M	8
Y9 (2034)	\$4.11M	\$5.80M	\$9.91M	10
Y10 (2035)	\$5.20M	\$7.20M	\$12.40M	12
10-Year Cumulative Combined			\$47.74M	

Dealer service assumptions: 42% gross margin; ~2 mobile workstations per territory; phased territory openings per expansion table. FSI corporate capital guidance: 150000–500000 USD (territory-dependent, per fleetservicesint.com).

SaaS Revenue Growth Trajectory

14. Product & Shop Roadmap

When	Milestone
2026 Q3–Q4	Google Play launch — FleetCo Driver (org.fleetcomanagement.driver); FSI territory pilot on FleetCo work orders
2027	Apple App Store — FleetCo Driver iOS parity; primary FSI territory at target utilization
2028	Second FSI territory (model); telematics integration pilots for Enterprise tier
2030	4 FSI territories (model); SaaS EBITDA break-even; optional ELD hardware partnerships
2035	12 FSI territories (model); \$5.7M+ SaaS ARR; integrated marketplace for parts

15. Key Milestones

- **2026 H2:** FleetCo Driver on Google Play · FSI dealership territory pilot (mobile PM/repair, Dallas metro)
- **Month 14 (~Year 2):** First \$100K SaaS ARR · primary FSI territory at target fleet-account capacity
- **Year 5:** \$1.36M+ SaaS ARR · 4 FSI dealer territories · combined revenue \$3.2M+ · EBITDA break-even (SaaS base case)
- **Year 7:** \$2.7M+ SaaS ARR · 6 FSI territories · iOS App Store parity with Android
- **Year 10:** \$5.7M SaaS ARR · 12 FSI territories · \$12.4M combined revenue · ~4,500+ vehicles under management

16. Risk Analysis & Mitigation

Risk	Mitigation
Customer concentration early stage	Diversify across regions and fleet sizes; no single customer > 15% of SaaS revenue by Year 3
Churn in economic downturn	ROI-focused retention, annual contracts, essential compliance + FSI PM bundles
Competition from ELD/telematics incumbents	Managed services + mobile service differentiation; integrate rather than replace telematics
Scaling fleet manager capacity	Platform automation, tiered support, hire ahead of customer growth
Dealer capital and technician shortage	Phase territory scale on utilization; apprentice program; competitive field pay tied to billed hours; FSI vendor supply chain

Intercompany complexity (FSI dealer vs FleetCo)	Clear MSAs, transfer pricing documentation, separate P&L with consolidated reporting
FSI territory award timing	Align plan with FSI corporate selection process; capital band \$150K–\$500K per site guidance
Technology reliability	PostgreSQL production DB, data integrity guards, monitored deploys on Render

17. Use of Funds

- Sales & marketing (35%) — ads, content, trade shows, sales hires
- Fleet management & support (30%) — customer delivery capacity
- FSI dealer capital & mobile equipment (20%) — workstations, tools, initial inventory per FSI qualifications package
- Product & engineering (12%) — mobile app, integrations, AI features
- G&A & infrastructure (3%) — hosting, legal, accounting

18. Assumptions

- Model start year: 2026 (Year 1 = first commercial year)
- SaaS gross margin: 68% · Shop gross margin: 42%
- Churn: 10% (early) declining to 6% (Year 10)
- Billing mix: 70% monthly / 30% yearly (10% annual discount)
- Blended SaaS ARPU rises from \$450/mo (Y1) to \$610/mo (Y10) as mix shifts toward Growth and Enterprise
- Fleet Services International LTD (FSI authorized dealer · affiliated with FleetCo) reflects Slack-affiliated FSI dealership operation (mobile territory model per fleetservicesint.com), integrated with FleetCo software — confirm legal entity and territory award before external use
